

Title- OTHERWORLDS

- Otherworlds in a project by Sumedha Gard and Nitin Bathla
- Their project has worked to create spaces for women in Kapashera, Gurugram.
- Sumedha and Nitin started by repurposing an old warehouse, with garment factories nearby they had a wide range of leftover pieces of cloth to work with.
- The project grew and the women started gathering, sewing and creating with the cloth.
- They created a 6 metres long 3 metre high map tapestry of their reimagined ideals of Kapashera.
